

## Pile Hitch

This is a very simple but useful hitch for tying around a post. It is ideal for mooring.

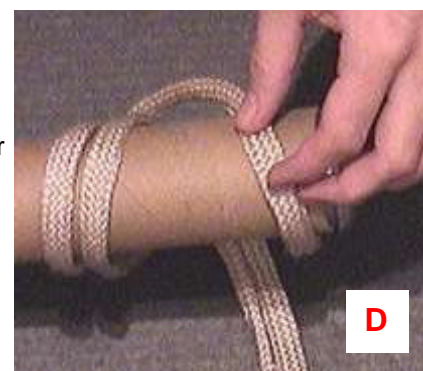

### How to tie a Pile Hitch

**(A)** Make a bight in the rope. Make a turn around the post (winding the standing part upwards). **(B)**

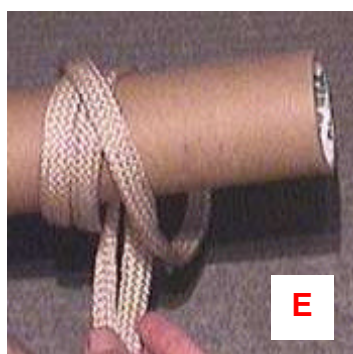

**(C)** Now take the loop up and over the post with the other hand. **(D)**

**(E)** Pull on the standing parts to tighten

Very quick to tie which means it is ideal for quickly mooring a boat or similar.
